

Monday 5 June

Our Year 11 students return after half-term to the thick of the examination season. Students attended revision sessions at half-term in their numbers, continuing to take seriously and conscientiously the examinations ahead. Year 11 students are reminded that there will be a quiet work room, staffed at all times in the weeks ahead, should they wish to conduct private study at school. All examinations and formal revision slots are listed on the exam timetable. If you wish to view the full examination and revision timetable please [click here](#).

We waved a sad farewell to a super year group in their leavers assembly after the English Literature examination on the Friday before half-term. To see my farewell video [click here](#).

This week has plenty of activity for the rest of the school as we approach the formal annual reports preparations for Year 7 and 8 students, these reports will go home later this half-term. Also, Year 8 gifted and talented students in food and Year 9 students from technology experience trips associated with these courses of study.
