

Tuesday 8 May

I hope that all our readers enjoyed the glorious weather over the bank holiday weekend. Of course, it is typical that the weather sets fair just as Year 11 students approach the final stages of their GCSE examinations.

First, this week a hearty congratulations to our Year 8 boys football team, who on Friday afternoon secured their place in the County Cup Final. With a 4-2 win over Sir John Leman High School it was a tense and tightly contested game. Watch this space for details of the final, which are held at neutral venue. However, our Year 10 geographers will appreciate the weather, as they head out on their Geography Fieldtrip on Tuesday, part of the GCSE studies.

Congratulations also to the Year 8 and 9 students in the Mathematics Challenge Team, who have qualified for the national finals in London.

Year 8 examinations start this week. Please [click here](#) for the examination timetable.

Last week, we were delighted to announce the names of students who will become prefects in the year ahead. This recognition demonstrates the commitment that they have made to their work and to the school community.
