

Monday 4 February 2019

Just over a week ago, the government published the performance tables with validated results from the 2018 GCSE examinations.

These results place us as the highest performing state school in Suffolk and Norfolk. We are delighted that these results show the hard work of students and staff in response to the new GCSE courses. These new courses, with more content and greater reliance on performance in terminal examinations, present a considerable step up in difficulty.

This week, on Thursday, we welcome Year 10 parents and carers for their Parents' Evening. This evening will provide a time to give feedback on how students have progressed since the start of the GCSE courses.

If you drive past the school in the next few weeks don't be surprised if you see some building work being undertaken, as we start renewing all the fencing around the school site and works to install a new catering pod at the rear of the school. Both these projects have been funded by a government grant to improve the safety of the site and as part of a healthy schools campaign.
